Dear Mr. Beckwith:

Re: Disposal of Contaminated Soil  
from Amphenol Products  
Franklin, Indiana

Pursuant to the letter of July 12, 1985, from Mr. Patrick Haynes and the meeting on July 12, 1985, between Division of Land Pollution Control representatives and Adams Center Landfill representatives, any misunderstanding regarding the above-referenced disposal request has been rectified. The Chemical Evaluation Section has reviewed the additional information provided and agrees that the hazardous waste designation of F008 is appropriate. Thus, the acceptance of the waste under Adams Center's generic approval is valid and the request sent to this office on May 3, 1985, will be disregarded.

If you have any questions regarding this correspondence, please contact Ms. Jenny Ranck at AC 317/243-5089.

Very truly yours,

  
David D. Lamm, Director  
Division of Land Pollution Control
